

Reflections on *Seedfolks*

by Mike T

What I Admire about

Sam, the Pacifist

Sam is my favorite character because he has the greatest ideas for the garden. I think Sam saved the garden with his idea about having the kids find ways to get water to the plants. Sam's idea of hiring a teenager to help him turn the earth was brilliant because that way he could focus on planting his seeds. I thought that Sam should have just paid the kid when he wanted to grow marijuana. I wonder if sam will go back to the garden next year.

Comparing and Contrasting Maricela and Gonzalo

Maricela is vary much like Gonzalo and Gonzalo very much like her, but both are also very different. Gonzalo and Maricela are both Hispanic teenagers. Gonzalo is male and Maricela is female. Maricela is expecting a baby soon. Maricela feels she was pretty irresponsible in getting pregnant, Gonzlao on the other hand is really responsible I didn't know if he has always been this way but he is now. In a sense they are both taking care of other persons, Maricela with her baby and Gonzalo with his great uncle, Tio Juan. Both of these teenagers have had a chance to grow (no pun intended) in the garden.

Analyzing a Quote from Curtis

"Deltoids-awesome. Pecks-check'em out. Quads now playing on a body near you. Can't help being born with this body, or living three doors down from Kapps Gym (pp.51)

Curtis is saying "My muscles are awesome look at me" that is what Curtis is saying. Curtis is speaking to the reader. I think this quote means that he is a conceited jerk.

Curtis thinks he is special because he lived next door to a gym and was born with a well built body. Apparently Curtis only cares about his muscle's, but being dumped seems to have changed him radically. I thin Curtis can be classified as an egomaniac.

I think all this matters to Curtis because he is insecure. This matters to me because I never want to meet anyone like this. Curtis is of a breed that are all t common and when you meet them you want to kick them because their so pompous.
