- Listen to different forms of literature including poetry and picture book stories
- Begin to distinguish between fictional and informational literature
- Begin to make predictions about a story based on prior knowledge and personal experience
- Begin to talk about characters' actions and feelings
- Expand vocabulary through literature immersion

Core Literature Studies

Teacher Read-Aloud Books:

Picture books coordinated with theme-related units of study

Author Studies:

Jan Brett, Tomie dePaola, Rosemary Wells, Eric Carle, Dr. Seuss, Gail Gibbons

Genre Studies:

Folklore, Poetry

MATHEMATICS

General Math

- Explore math manipulatives
- Recognize and create simple patterns
- Begin to do simple story problems

Numbers and Numeration

- Understand 1–1 correspondence, relate number of objects to a numeral
- Count by rote and practice to 100
- Practice writing numbers to 30
- Use ordinal numbers to 10
- Recognize numbers to 50
- Recognize and name coins. Practice values of coins

Computation and Estimation

- Begin simple addition
- Be introduced to subtraction
- Count by tens and fives to one hundred
- Begin to understand temperature

Measurement

- Begin to learn about time, calendar, seasons, weeks, days
- Measure using a variety of standard and non-standard units

Geometry

- Recognize basic 2–D and 3–D shapes
- Sort objects by attributes using concrete materials

Data Collection and Analysis

- Collect, organize, represent and interpret simple bar graphs

SCIENCE

Process Skills

- Explore and observe, measure, describe, classify, compare, sort, communicate

Content

Physical Science: Color & Structures

- Identify colors
- Mix primary colors to create secondary colors
- Observe and construct 2–D and 3–D structures

Life Science: Habitats

- Observe and recreate different habitats
- Learn that different habitats support different life systems

Earth Science: Soils, Water, Sun, Air

- Learn about the relationship between one's self and the environment
- Learn about seasons, weather, plant growth, snow & ice
- Learn about the need to care for our environment

Health: Introduction to Human Growth, Development, and Health

Learn about the following concepts:

- Individuals differ
- Individuals grow and develop
- Humans need exercise to have a healthy body
- Humans have emotions
- Schools have basic safety rules
- Body parts have names
- Introduction to the Food Pyramid

SOCIAL STUDIES

Self and Family

- Self-awareness
- Family-awareness
- Home and neighborhood awareness
- Awareness of new school

Ancestry

- Learn that people moved to the U.S. from elsewhere in the world
- Learn about personal ancestry
- Learn about celebrating diversity

Geography

- Begin to look at maps

Additional areas of focus

- Holidays
- Counting in different languages

SOCIAL SKILLS

Civic and Social Responsibility

- Follow directions
- Follow safety rules
- Follow school rules

Personal Development

- Share
- Take turns
- Show respect for self and others (both physically and personally)

Communication

- Communicate respectfully (say please, thank you, etc.)
- Express needs and wants appropriately
- Practice giving "I" messages

LIBRARY SKILLS

Organization and Location of Library Materials

- Know that materials in a library have a specific order
- Develop an understanding of one's own part in keeping materials in order

Selection and Evaluation Techniques

- Choose a book to borrow

Care of Library Materials

- Take proper care of a book
- Follow circulation procedures
- Learn how to turn pages properly

Literature Appreciation

- Begin to recognize characters and authors of favorite picture books
- Recognize alphabet books
- Become acquainted with Mother Goose and nursery stories

INFORMATION TECHNOLOGY

Basic Operations and Concepts

- Use age-appropriate applications
- Use menus, keyboard and keyboard shortcuts

Social, Ethical and Human Issues

- Respect the work of others

Technology Productivity Tools

- Use software to write and draw pictures

Communication Tools

- Contribute to a class project with text and images

PHYSICAL EDUCATION

The main objective of the physical education program for Kindergarten students is to create an interesting and welcoming environment of physical activities that each student will be eager to participate in. Students are introduced to and given time to explore the following: manipulatives (hoops, different types of balls, jump ropes, small stilts), spatial and body awareness (tag games, small group or partner activities), locomotor activities (running, skipping, galloping, etc.), non-locomotor activities (jumping, rolling, balancing), social skills/sportsmanship (sharing, taking turns, cooperation, going out with no complaints, respecting equipment), simple fitness, and wellness.

ART

In kindergarten children are introduced to a variety of art media and methods. They explore and experiment with many materials on a variety of projects. Throughout the year they are encouraged to be creative and to enjoy art.

MUSIC

Kindergarten children are introduced to the world of music and movement in many different ways. They participate in group singing, simple folk drumming, creative movement, and simple yoga in order to be exposed to music, rhythm, and moving through space. They are encouraged to be creative yet controlled in their movements and music. Above all they are encouraged to enjoy music.
